

DIGITIZING LOGISTICS

B2B DIGITAL LOGISTICS PLATFORM

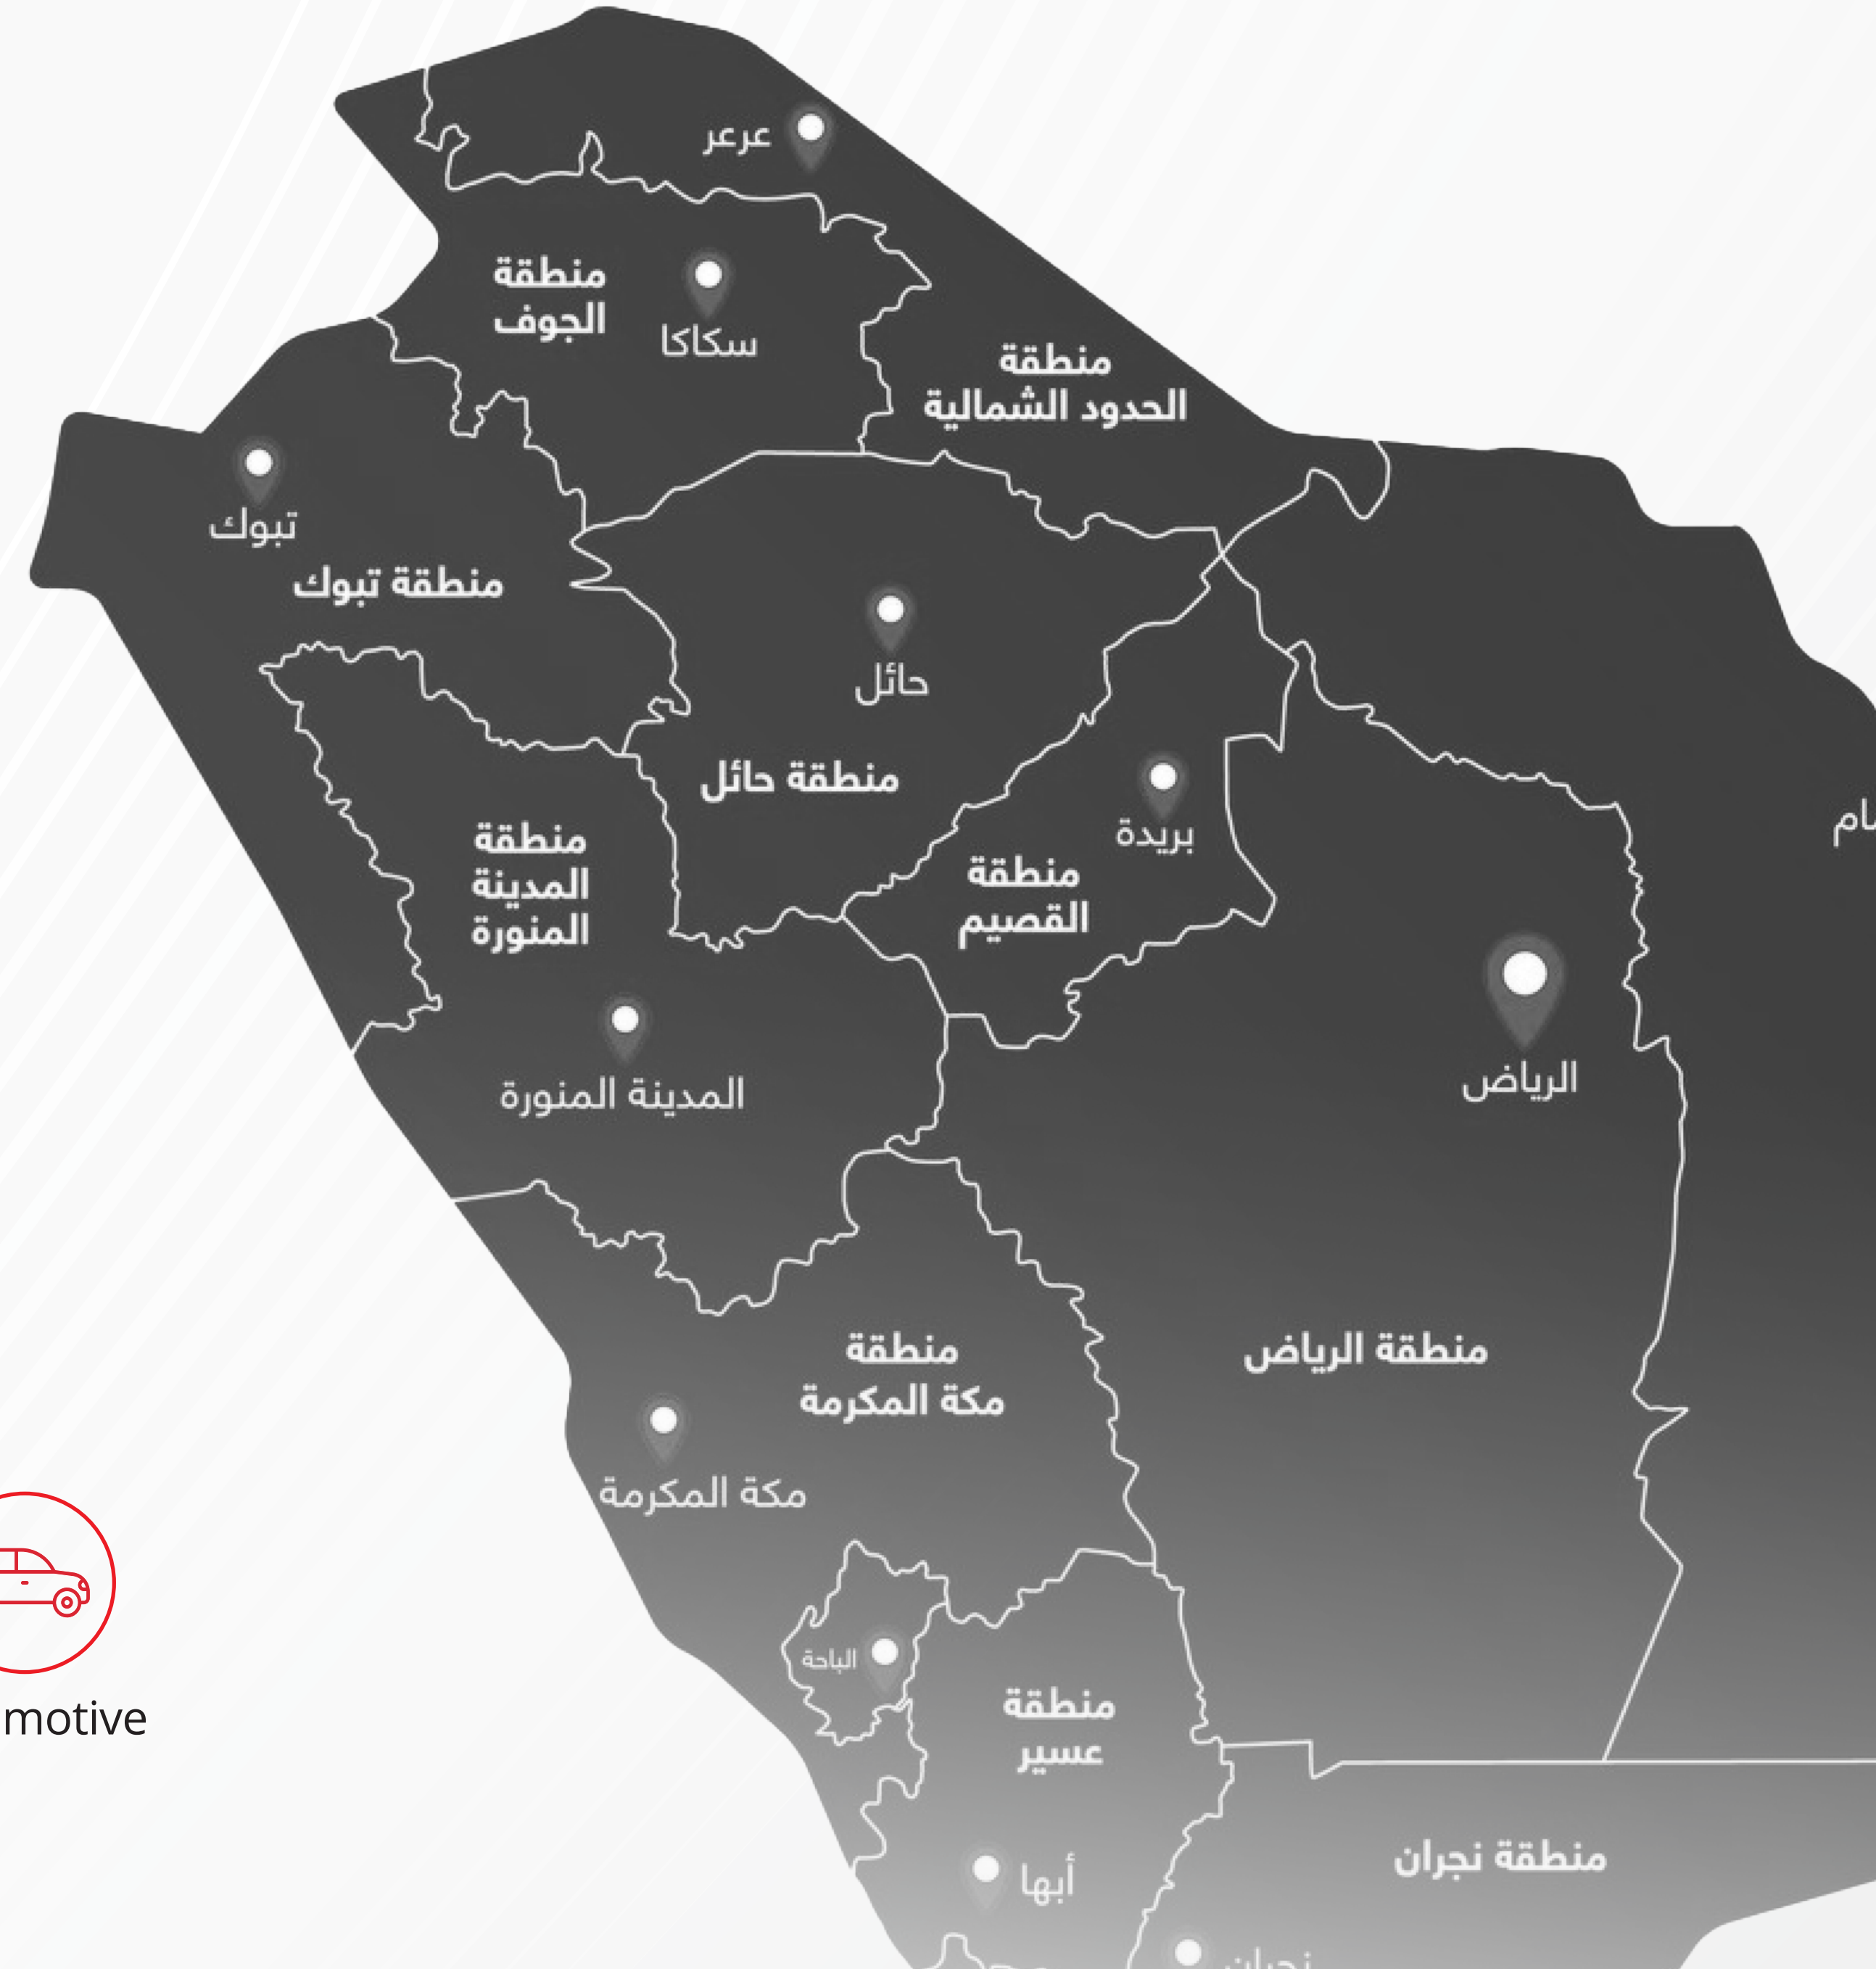

TACHYON

A grayscale photograph of a large industrial facility with a long line of semi-trucks parked in front of it. In the foreground, a forklift is positioned next to a stack of boxes. The sky is overcast.

WHO WE ARE

Tachyon is a cutting-edge, cloud-based B2B digital logistics platform in addition to native mobile application.

This enables users to efficiently manage their transportation and logistics operations. The platform seamlessly integrates with the ERPs & already integrated with the Saudi Public Transport Authority's platforms Bayan, Naql, and Wasl portals, as well as Fash platform for customs clearance, simplifying logistics management for users.

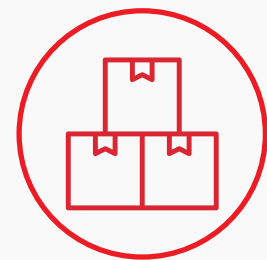

COMPREHENSIVE INDUSTRY COVERAGE:

FMCGs

Healthcare

Distribution

Logistics

Petrochemicals

Oil & Gas

Food & Beverage

Manufacturing

Automotive

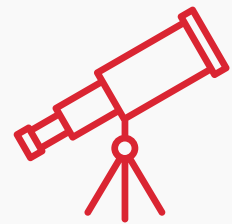

TACHYON

WHAT DRIVES US

OUR MISSION

We are committed to quality and surpassing expectations. At Tachyon, our goal is to provide our stakeholders with outstanding service and value.

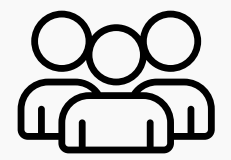

OUR VISION

At Tachyon, we are fueled by innovation. Our vision is to become the preferred choice for efficient, rapid, cost-effective on-demand logistics services & transport management solution in the region.

WHY CHOOSE TACHYON

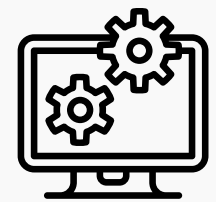

FOR CUSTOMERS

(manufactures retailers & distributors):
access to +15,000 trucks, one invoice & one SLA

WE PRIORITIZE ON CONVENIENCE

for users throughout the entire user journey (templating, import & export functions, support four languages)

FOR SERVICE PROVIDERS

(Transporters & 3PL companies):
access to demand, free TMS & billing system.

TRACEABILITY

the platform provides live track & trace through the driver mobile app & the integration with IoT devices

FOR FLEET OWNERS

Manage your fleet & dispatch operation, digital documentation, live track & trace, dashboard, seamless experience, integration with ERPs

SECURITY & SAFETY

highly secures environment; integrated with Saudi Government Portals, OTPs and geofencing availability

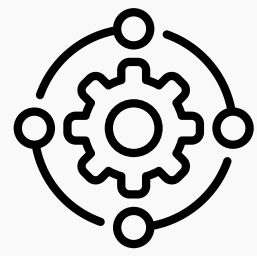

PRICE COMPETITIVE

through a Fair and transparent pricing with customizing Quotations management fitting your needs.

WHAT SETS US APART

We offer two services that we believe can benefit your organization:

DIGITAL LOGISTICS SERVICES:

Managing the entire logistics & transport operations on shippers' behalf:

- Tachyon takes over carrier pre-qualification & selections.
- Network of +15,000 trucks (different types)
- One contract, one invoice, one SLA
- Fixed price agreements
- Insurance Coverage
- All are powered by technology.

TACHYON TMS:

End-to-end digital solution for managing logistics operations:

- Manage your fleet & dispatch operations
- Manage the relations with transporters
- Board your clients
- Digital documentation (waybills & PODs, etc.)
- Dashboard, live track & trace
- Driver App

PRODUCTS WE SERVE:

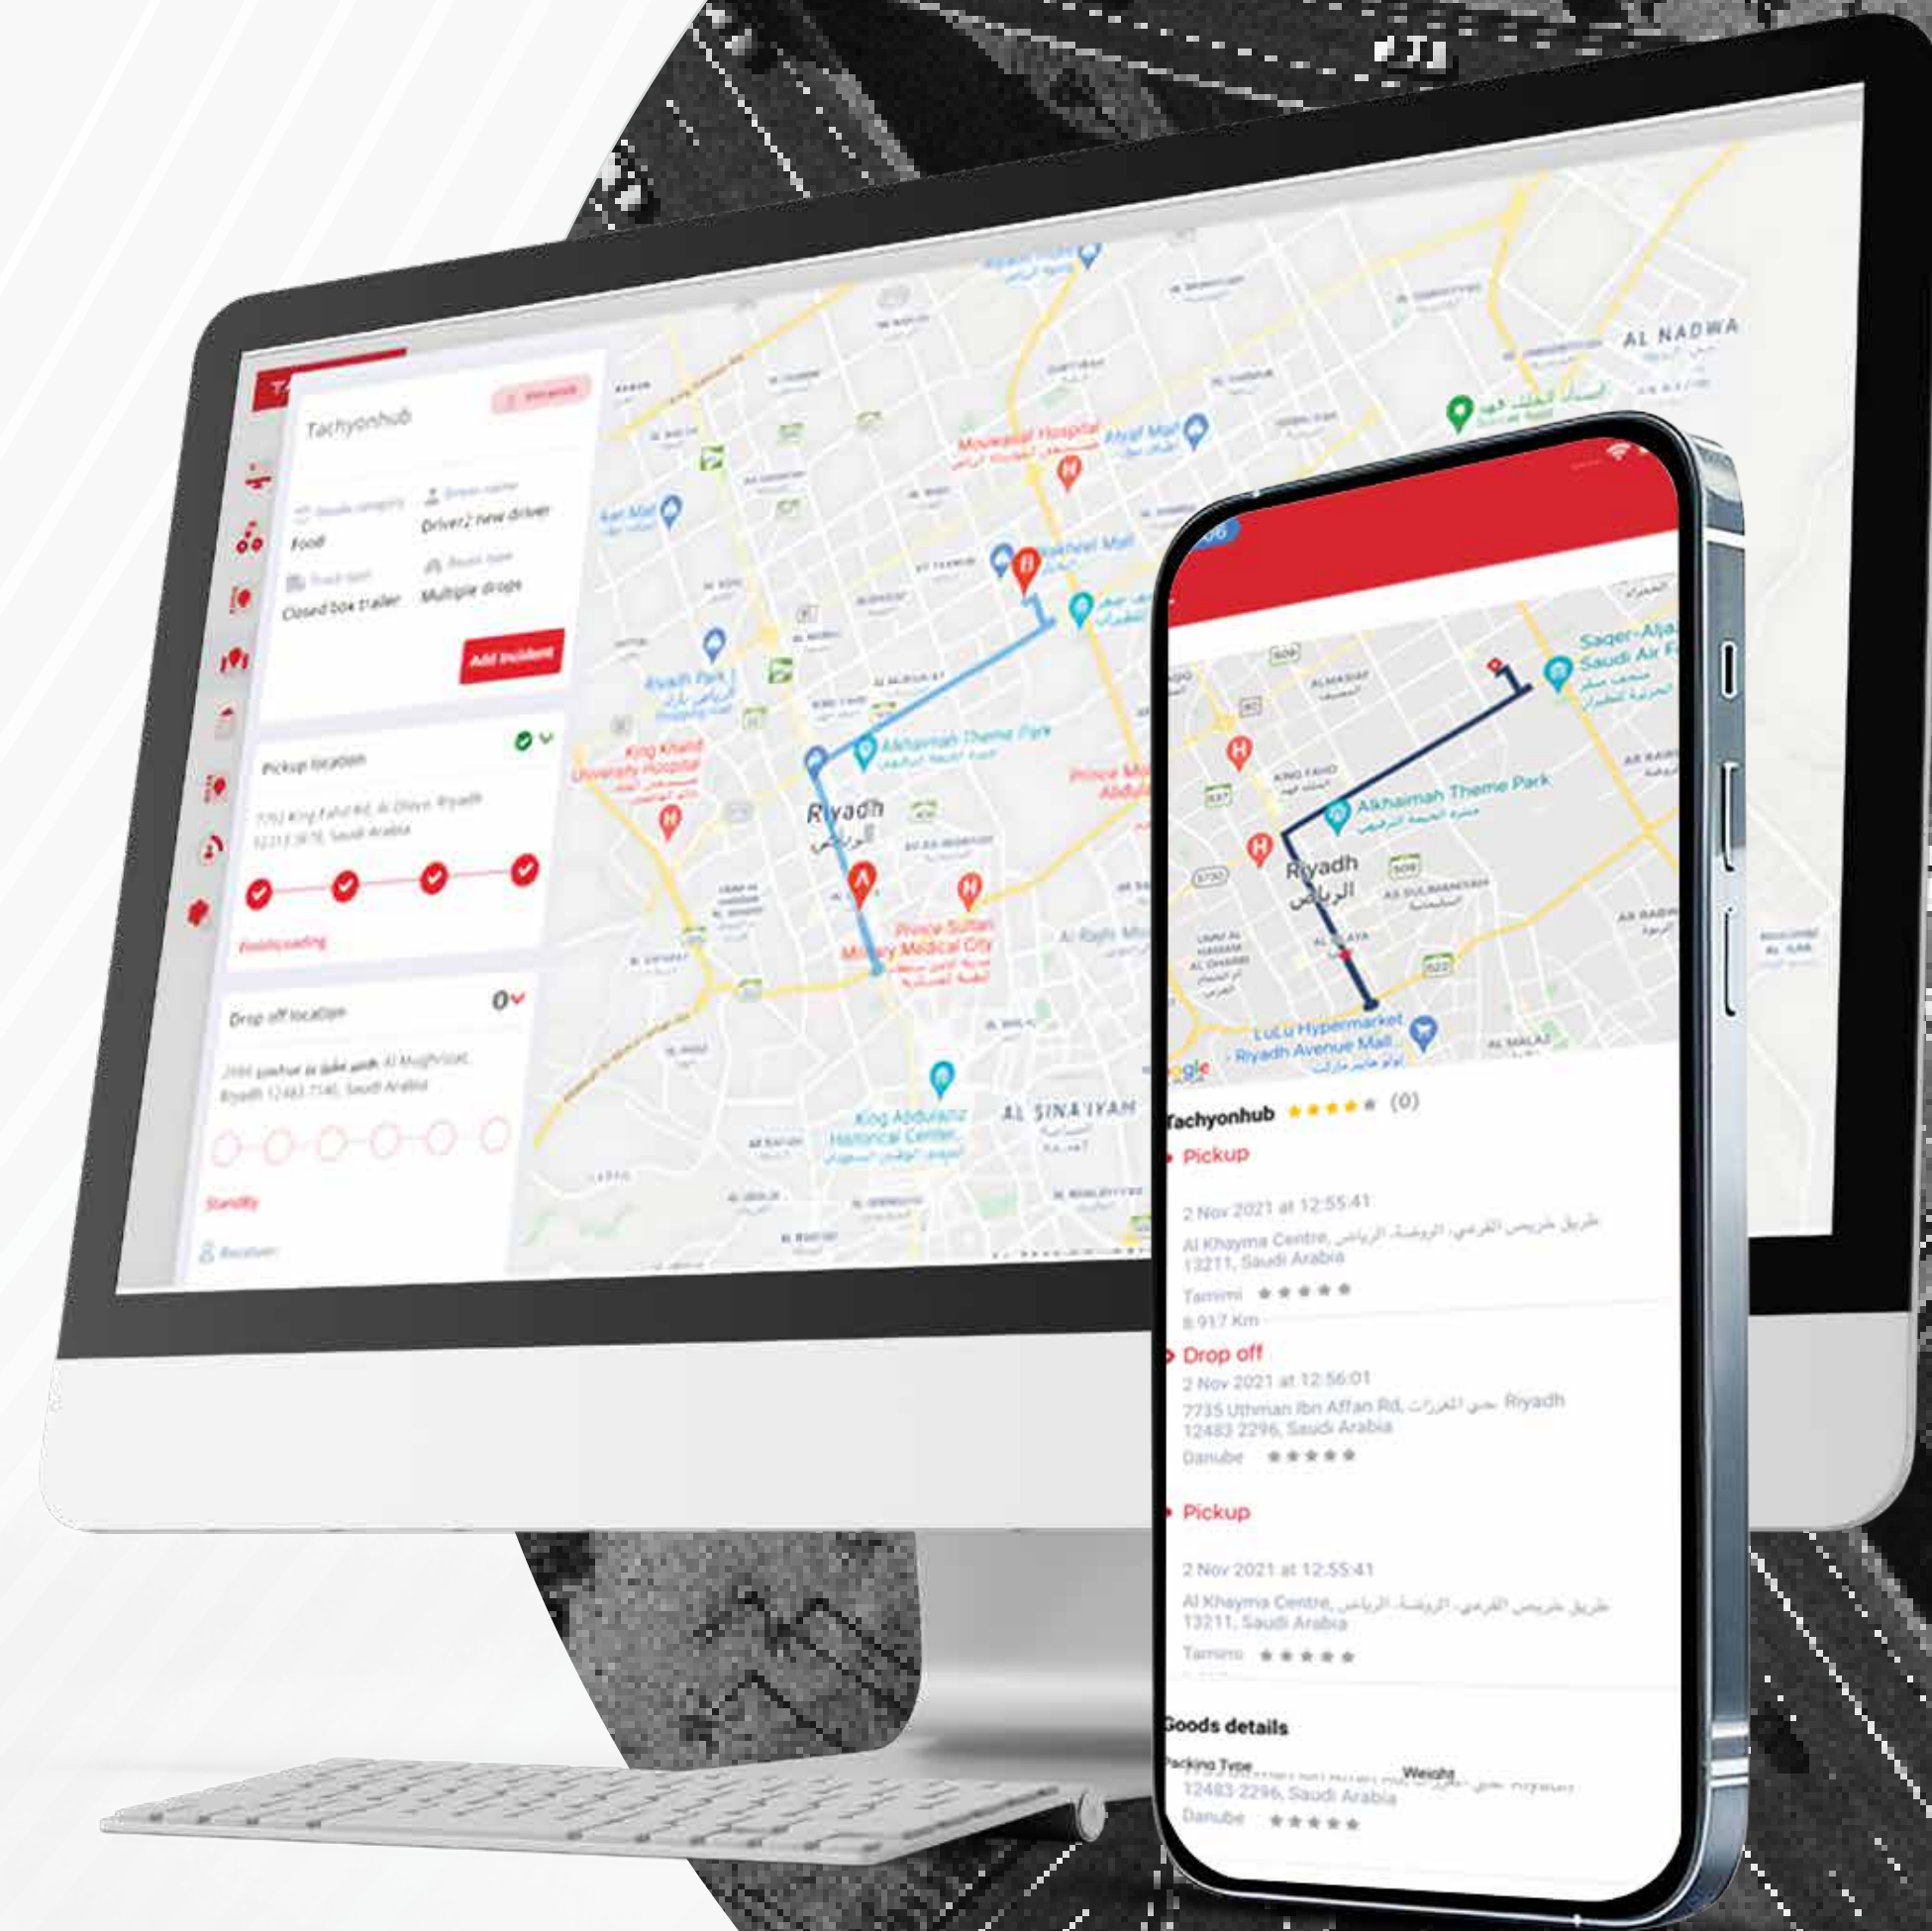

CLOUD BASED PLATFORM:

- Dashboard
- Fleet management with KPIs & Reporting
- Pricing set up & invoicing module.
- Clients & transporters portal
- Port movement module

MOBILE APP:

for drivers with offline mode.

- Trip Triggers
- Incident Reporting
- E-Pod
- Multi-Language (English, Arabic, Urdu & Hindi)

TACKLING MULTIPLE PAIN POINTS:

FOR TRANSPORTERS:

Transporter Pain-Points	Technology Advantage
Reaching Customers is Difficult.	Multiple Access to Loads from Different Shippers
Low ROI (Returns of investment)	Higher Use of Trucks / Assets
Revenue Volatility & Unpredictability	Measurable & Predictable Performance
Limited Technology Expertise	Intuitive, Seamless User-Friendly Interfaces
Invoicing & Payment Collection	Data-backed Proof of Work

FOR SHIPPERS:

Shipper Pain-Points	Technology Advantage
Limited Choice of Transporters & Trucks	List of Transporters & Trucks
No Control Over Pricing	Transparent, Upfront Pricing Regime
Complicated & Manual Booking Process	Assisted Order Placement & Quotation Management
Repeated Check On Delivery Status	Real-time Order Status & Instant Updates
Delivery and Route Changes	Customized Routing – Multiple Pick-ups and Drops

ORDER LIFECYCLE

Shipper books a trip

Order goes to the most appropriate transporter

Specific truck gets assigned

Status updates

Truck loads shipment

Rating

Payments

Invoicing

Proof of delivery generation

Electronic generation of documents
